Sun Catchers

Recycled glass brought back to life! Bottle bottoms are cut, melted, and hung on a beaded string to give new life to recycled glass as a sparkling sun catcher. Sun catchers can be used inside or outside as they will not be harmed by rain (but should be hung in a sheltered location away from wind if kept outside). While the sun catchers are mostly round, the small imperfections in the recycled bottle gives each sun catcher a unique shape. Approximate size is 4" x 4".
